

As of **21th July 2021**,

The European REACH regulation 1907/2006 pertaining to Registration, Evaluation, Authorization and Restriction of Chemicals was launched on 1st June 2007 and updated/implemented on Dec. 19, 2011 that affects all companies producing, importing, using or placing products in to the European market. The aim of the REACH regulation is to ensure the highest protection to human health and environment from chemical substances.

Referencing paragraph 3, of the REACH article section 3; products and components delivered by **Beanair GmbH** are classed as 'articles'.

The products/articles under normal and reasonable conditions of use do not have intended release of substances; therefore, the requirement in the REACH article 7 (1) (B) for registration of substances contained in these products/articles do not apply.

In addition, we confirm that the products/components delivered by **Beanair GmbH** do not contain 'Substances of Very High Concern' (SVHC) with more than 0.1% w/w as defined by REACH article 57, Annex XIV, Directive 67/548/EEC. Hence the requirement in REACH article 7 (2) to notify ECHA if a product/article contains more than 0.1% w/w of an SVHC and tonnage exceeding 1 tone per importer per year is not applicable.

The products of **Beanair GmbH** are produced by electronic manufacturers, who are considered in REACH as downstream-users exempt from accomplishing a registration or pre-registration.

In case of any further questions do not hesitate to contact your regional sales representative for **Beanair GmbH**.
